He's got a good thing going on

Raptors Attack, Abscond with Homework

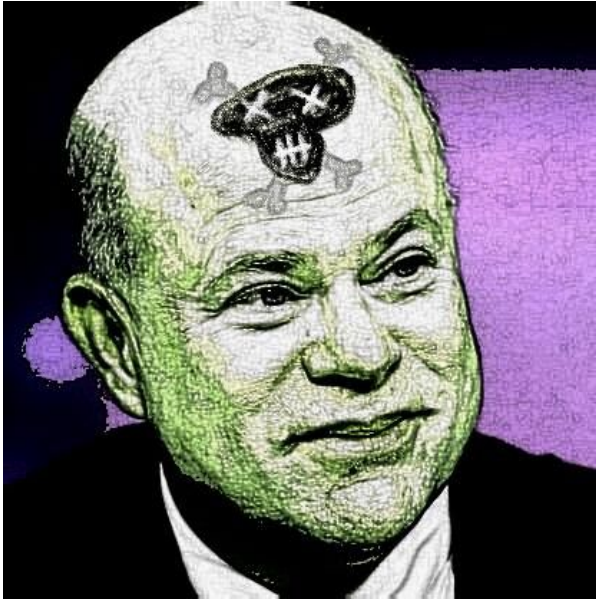

Velociraptors. The very name strikes fear into the hearts of the genre-savvy. Known for their uncanny ability to hit the enemy just where it will hurt the most, raptors are among the deadliest of foes.

And so it came to pass, that when the raptors (the very same group as those who dispatched Congress and replaced it with a room of cardboard cutouts several years ago) finally reached Carnegie Mellon, they quickly assessed the situation, determining that homework thievery was the key to destroying this fine institution.

Komrades, I beg of you, do not let them win! Help each other, help yourselves, and don't fall victim to their alluring calls for procrastination. You're halfway there. You can do this.

This

I don't know what this is.

Beginner's Guide to KGB

KGB is a social group that takes our silliness very seriously! We meet on Mondays from 4:30–5:30 in MM 103 and get food afterward at Resnik. Confused? So are we.

A few things to note:

1. Raise your hand to speak
2. Auctions are in real money dollars
3. If you have any questions, just ask!

To find out more, come to exec meetings!
They are open to everyone and take place
Tuesdays at 5:00 in UC 306
Or contact us at exec@cmukgb.org

Booooooooooooooth

Booth is _____.

But also _____.

But ultimately _____.

Article 43

Prolonged exposure to ASMR gives you ass teeth.
