CMU Mythos — A Primer for Frosh During O-Week

Ellen Seeser, Former Freshman

The CMU KGB extends a warm welcome to all incoming members of the class of 2022+! We know that orientation week can be a busy time (we were there once, too), so we've put together some helpful reminders and pointers to get you through your first week on campus.

- If you get lost in the buildings, just keep going down! At the bottom of stairwells you can usually find an NPC with some good clues.
- Three of the 21 snakes which call Pennsylvania their home are venomous. 14.2% - Congrats! that's good odds!
- Don't go looking for the goat ghosts. We got rid of them all last year.
- To challenge your navigation skills, try to get from Hammerschlag to Porter without going outside. If you succeed, come talk to me; I tried to do it all last year without success. Construction may have changed things since then.
- When in Wean, remember to be respectful of the breathing holes. Don't unplug the bottle caps! Keeping Wean contained requires a delicate balance of pressurization.

Remember these tips, young freshmen, and stay safe out there when exploring campus!

KGB? Who Are We, Anyway?

Ellen Seeser, Full of Information

According to www.cmukgb.org, the KGB is...

- an informal, co-ed social organization at Carnegie Mellon University
- almost 99% fat free.
- an eccentric bunch of nerds, geeks, freaks, visionaries, outcasts and ne'er-do-wells, who plan on being on the right side of the guns when the Revolution comes.
- by law, not more than 5 percent insect parts or animal hair.
- so much fun, your pants will explode!
- those strange people who run up to you in Wean or Doherty, fiercely brandishing strips of foam-rubber and demanding to know whether you're on the red team or the yellow team.
- so bad, we kick our own asses twice a day.
- having an average body temperature of more than 96F.
