Local Trash Can Vandalized by Absolute Chumps

(Submission: kmcarpen, 8/30/21)

On August 30th of 2021, a campus trash disposal device was found to have been heinously disfigured by the presence of a single one (1) dollar bill. The physical dollar bill is speculated to have been a form of currency predating the invention of Venmo, that may have been used solely to purchase items from vending machines, and literally nothing else.

After the trash can had been located, some enterprising members of the CMU KGB added a second dollar bill. The current whereabouts of the two dollars are unknown.
