NEW ONEVEEP? EXPERTS AGREE: YES

That's right folks! What would KGB be without a little mid-semester exec change? Due to foreseen circumstances, rtosh has stepped down as First Vice

President. Despite chemistry not being real, KGB has chosen a "Chemical Engineer" to fill the spot, Georgia! Her coming now marks the second integration of Kiltie Band into KGB's exec. Conveniently, the two flutists carry the two highest authoritative roles. Coincidence or grand plot? Pravda? has no ability to say.
